Paints/Props: - Michael would prefer to use the stool we have in the Studio for the piano. The rolling one we got today is not tall enough to see Pippin well over the piano. The rolling stool has been returned to the shop. -One of the spears' tips broke off. It has been placed in the shop.
Lights: - No notes today, thank you.
Sound: - Hannah Grace Gereb has raised a concern for the mic tape. She is allergic to latex and sometimes reacts to certain tapes. Her skin had a mild reaction to the mic tape we used during sitz. Would it be possible to try a different brand or two for her?
Costumes: -No notes today, thank you.
Admin: -During setup with stage management, while the bay doors were open to bring in large pieces from the prop shop, a bird flew into the Studio Theatre (a robin we think). The following things were tried to get the bird out of the ST: <ul style="list-style-type: none">-All lights turned off, and playing recorded bird call noises near the open bay doors-Full cast shouting and making noise to shoe it toward the open bay doors-ECUPD was called to report it in hopes there would be some kind of on call maintenance that could help.-Bay doors were kept open and low lights on during strike of the room to encourage it out. -The bird is still in the Studio Theatre. His name is Pip. He was not disruptive to rehearsal. -Tommi has the first class in the ST in the morning and will leave the bay doors open during class in hopes that Pip will fly out toward the daylight.
Miscellaneous: -Jaleel Battles was given a bandaid.
Stage Management: ASMs: Your call time is 6:00pm in the Studio Theatre.
