Technical Notes:

Sound - The back up CD (after being tested before the show) began skipping during the pre-show music. SM asked Sound Op to fade the music out. We took the CD out and cleaned it, then restarted it, minus 1 min. 30 seconds left to play. It skipped a few more times during the pre-show, but did not have problems during the show. Tomorrow, if we are unable to get a new CD, the preshow will be played from the computer.

Lights - Cue 9 (the second circle breakaway in Adam's piece) was called a few beats late.

Lights - Cue 57 (the blackout after bows for Dana's piece) was called early. We went back into the cue before it finished fading.

House - A patron on the first row had a cell phone on during the 2nd half, and the light became distracting. Biba asked the patron to refrain from using it.

Production - The video could not be transferred to the computer after the show. Sean, can you check this before tomorrow's performance?

Artistic & General Notes:

Great show everyone! Thank you all for your hard work!
