**Technical Notes:**

1. Costumes: There are a few notes that need attention. Please see the wardrobe repair sheet.
2. House Management: Stage manager had multiple problems with contacting FOH at the top of the 2nd Act, during, and after. Can we check the walkies for malfunctions?
3. Scenic: In light of change over to Big Love, Stage Manager struck the Birnam Wood planks to the storage areas behind the tin wall on the garage level (3 on SR, 4 on SL). Also, because the prop rooms will be housing props for 3-4 shows at a time this season, would it be possible for scenic to store the thrones and all elements of the banquet table and stools? This would help immensely in organization of the prop rooms between shows.

**Artistic & General Notes:**

1. Miles: On your line "Blow wind, come wrack...." we are losing the last word or two when you turn to exit.

**Building Maintenance:** The lock on the stage right prop room door is getting harder to lock. It seems to get jammed, and the knob must be turned back and forth multiple times before it resets. Can we have someone take a look at it? Thank you!

**The next show is: Tuesday, October 28th @ 10:00 am**
